research paper postgraduate from the year 2023 in the subject pedagogy school system educational and school politics grade 90 language english abstract this study aimed to identify and describe the challenges and barriers encountered by the students in modular learning this study utilized quantitative research design the researchers sent out an electronic survey via google forms to students the respondents were selected using convenience sampling technique using open ended questions and likert scale the following data were obtained demographics self assessment of capacity for modular learning and challenges and learning barriers encountered by the students in modular learning descriptive statistics were calculated under prevailing conditions the students considered themselves physically and mentally capable of engaging in modular learning challenges experienced by the students were classified to 4 categories individual domestic institutional and community barriers the study limited its coverage on the response of 217 students in eugenio cabezas national high school s y 2021 2022 research on distance learning is still in its early phases and there are very few studies which investigated the modular learning hence the findings of this study are of paramount importance for future learning continuity plans of educational institutions and stakeholders

seminar paper from the year 2022 in the subject didactics for the subject english pedagogy literature studies grade 1 3 university of flensburg institut für sprache literatur und medien course tefl in primary school playful english teaching language english abstract the aim of this paper is to raise awareness of the importance of integrating games in the primary efl classroom the approach to foreign language teaching has shifted in the sense that it is now not only a possibility but rather a requirement that foreign language teaching and learning should be enjoyable a teaching technique that is characterized by the elements of fun and play is the use of games hence this paper argues for the implementation of games as a teaching technique in the primary efl classroom and emphasizes the benefits of doing so regarding the positive impact it has on the language learning process although the pedagogical value of games in the teaching of english as a foreign language efl is generally acknowledged the usage of games in primary efl

education is less documented and even less practiced since r esearch on foreign language teaching and learning often focuses on older learners the inclusion of games in children s education has been studied but rarely with the focus on foreign language learning thus there is still a lot of research to do when it comes to teaching english as a foreign language playfully to primary school students

master s thesis from the year 2024 in the subject pedagogy general grade 9 university of iceland faculty of diversity and education language english abstract this study delves into the experiences of migrant parents residing in iceland and their perceptions of their children s language learning journey in icelandic preschools with multilingualism playing a crucial role in today s diverse icelandic society understanding the perspectives of migrant parents is essential for fostering inclusive educational environments in preschools by taking a critical approach my primary focus will be on identifying and analyzing the short comings within the educational institutions of reykjavik city and their impact on migrant parents and their children s language development through qualitative interviews with six migrant parents in iceland through narrative analysis and an autoethnographic approach this research aims at shedding light on the experiences and challenges of migrant parents as their children navigate language acquisition in icelandic preschool settings while learning their heritage language at home i will also ask the question of how much of the policies of the national curriculum have been carried out in different educational facilities inside reykjavik consequently i want to discuss if preschools in reykjavik stick to a multilingual policy or if they try to maintain a monolingual discourse for young children the parents i interviewed for this paper expressed concerns about communication issues with their children s preschools in iceland additionally they highlighted a perceived lack of staff in icelandic preschools leading to the perceived lack of communication the parents also felt that there was an overemphasis on the icelandic language this in turn made it difficult and frustrating for the children to communicate in their home or heritage languages the findings aim to contribute to a deeper

understanding of multilingualism in educational contexts in reykjavik and aim at providing valuable insights for educators and policy makers to support language development and integration for migrant children there has been a long standing interest in multilingualism in icelandic preschools and the impact of the linguistically diverse upbringing of children in this country with my research i try to contribute to the ongoing discourse on multilingual education in preschools

master s thesis from the year 2023 in the subject pedagogy media pedagogy language english abstract in this 21st century world the teaching and learning environment has put forth a number of innovations and some of these involve the use of technology through distance learning contrary to a generally accepted observation clark 2020 argues that distance education is not a very new model of education as cited in sari and nayor 2020 the emergence of distance education applications dates back to about 300 years one of the first known applications is weekly lessons delivered to students in the usa via mail as well as countries such as england switzerland and australia have provided distance education with different tools mail radio television etc years ago due to geographically dispersed and sparse population distribution this study is a descriptive correlational research which examined the significant difference between the extent of use of distance learning and self regulation learning skills and its effect to the demographic profile of the teacher participants in public elementary schools in the district of alfonso cavite specifically the study reported the demographic profile of the teacher participants in terms of age sex civil status the highest educational attainment and length of years in teaching examined the extent of use of distance learning in terms of access interaction response and results level of the students self regulation learning skills in terms of goal setting environment structuring task strategies time management help seeking and self evaluation and investigated the significant difference among these variables extent of use of distance learning and level of students self regulation learning skills when grouped according to demographic profile and determine as well as the significant difference between the extent of use of distance learning and level of students self regulation learning skills
